Emerging growth company ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Item 7.01 Regulation FD Disclosure.

On March 8, 2022, Microchip Technology Incorporated (“Microchip, “we” or “our”) management gave a presentation at the Morgan Stanley Technology, Media and Telecom Conference. Among other things, at the presentation, management provided a new update regarding our expected growth rates noting that at our investor day in November 2021, we shared that using our fiscal 2021 revenue as the baseline, we expected our long-term revenue growth rate to be 2x the industry growth rate. This assumed a historical backward-looking semiconductor growth rate of 3% to 4% per year. With the benefit of a few more months of data and some deeper analysis, management clarified today that our five year growth rate using fiscal 2021 as a baseline is expected to be 10% to 15%.

A link to a recording of the presentation was posted to Microchip’s website earlier today and is available at
